

Registration

Advanced Air Mobility

AAM WORKSHOP

2026.04.28 (TUE) 10:30 ~ 17:00

Place

Hong & Park KI Building (E4) 2F Matrix Hall, KAIST

Session

Time

Presentation Title

Speaker

Session 1

10:30 ~ 11:00

Keynote Speech

Prof. Yoonjin Yoon
KAIST

11:00 ~ 11:30

The Traveling Salesman Problem with Drone:
Algorithms, Neural Acceleration, and Probabilistic Analysis

Prof. Changhyun Kwon
KAIST

11:30 ~ 12:00

Navigating the Unknown: Proactive Strategies for Safe
AAM Operations

Prof. Jungwoo Cho
Inha University

Lunch Break

Session 2

13:30 ~ 14:00

From wake decay to dynamic wake separation:
An integrated data-driven optimisation ATM framework

Prof. Kam Hung NG
Hong Kong Polytechnique University

14:00 ~ 14:30

Reinforcement Learning-Based Operational Strategies
for Advanced Air Mobility Systems

Prof. Yu Yu Zhang
University of South Florida

14:30 ~ 15:00

Learning-Based Pre-tactical Conflict Management
Strategy for Urban Air Mobility

Prof. Ang Li
Hong Kong Polytechnique University

Break

Session 3

15:20 ~ 15:50

From Data to Decision: Risk Modeling and Risk-Aware Planning
in Advanced Air Mobility

Prof. Hyosang Shin
KAIST

15:50 ~ 16:20

Expected Off-Nominal Situations in Urban Air Mobility

Dr. Seyun Kim
Korea Transport Institute

16:20 ~ 16:50

Toward Risk-Based Airspace Management for
Advanced Air Mobility: A Probabilistic Modeling Approach

Prof. Soohwan Oh
Hanseo University

주최

Center for Advanced Urban Systems
KAIST 도시인공지능연구소

후원
